

Assistance to Firefighters Grant Program

The Assistance to Firefighters Grant application period will open **Monday, November 8, 2021** and will close **Friday, December 17, 2021**. As this application has a short window, you should prepare to develop a competitive application. To assist with this process and to make sure you are eligible to apply, you should start by taking these initial steps:

▪ **SAM.gov registration:** Update your city's SAM.gov registration. SAM.gov registration must be renewed annually. **An application cannot be started until your city is registered and active in the SAM system.**

▪ **Complete a Needs Assessment:** Review your equipment, gear, and vehicle needs and condition. The most competitive applications will have completely documented the existing condition of equipment and why your department needs to update it, or add it to your inventory.

▪ **Obtain an informal cost quotation.** Please note that once awarded, a formal bidding process will need to be completed.

The FY20 AFG program received over 8,150 applications, and only 2,220 awards were distributed.

For additional information about the FY2021 visit the AFG website by clicking [HERE](#). The Notice of Funding Opportunity (NOFO) can be found [HERE](#).

COG staff will help you prepare your application at no cost.

If your department is interested in submitting an application or you have questions regarding this program please contact any of the following local assistance staff at the COG at 712-792-9914 or via e-mail.
