

Assistance to Firefighters Grant Program

The Assistance to Firefighters Grant application period is now open and will close **Friday, February 10, 2023**. This application has a short window to apply, therefore you should act now if your department is interested in applying. Completing the items below as soon as possible will assist with the application process and will allow your department to submit a competitive application:

▪ **SAM.gov registration:** Update your city's SAM.gov registration. SAM.gov registration must be renewed annually. **An application cannot be started until your city is registered and active in the SAM system.**

▪ **Complete a Needs Assessment:** Review your equipment, gear, and vehicle needs and condition. The most competitive applications will have completely documented the existing condition of equipment and why your department needs to update it, or add it to your inventory.

▪ **Obtain an informal cost quotation.** Please note that once awarded, a formal bidding process will need to be completed.

The FY21 AFG program received over 8,179 applications, and only 1,936 awards were distributed.

For additional information about the FY2022 visit the AFG website by clicking [HERE](#). The Notice of Funding Opportunity (NOFO) can be found [HERE](#).

COG staff will help you prepare your application at no cost.

If your department is interested in submitting an application or you have questions regarding this program please contact any of the following local assistance staff at the COG at 712-792-9914 or via e-mail.
